

Project Initialization and Planning Phase

Date	21 sep 2026
Team ID	XXXXXX
Project Name	Global AI Adoption in Education: A Comprehensive Global Performance intelligent report
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" they care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what hinders them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problems or barriers exist - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am a traveler	I'm trying to book flights on my phone	but it takes a long time	because the website is not responsive and doesn't have a mobile version	which makes me feel Frustrated
---------------------------	--	------------------------------------	---	--

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student who wants to learn Artificial Intelligence.	Access quality AI education, practical learning	AI learning resources are often	There is a lack of accessible, affordable, personalized	Confused, frustrated, and left behind in the rapidly growing AI field.

		resources, and guidance from experts.	difficult to understand, expensive, or not equally available to students in different regions.	d, and multilingual AI education platforms.	
PS-2	A teacher who wants to teach AI effectively to students.	Provide students with updated AI concepts, practical activities, and industry-relevant skills.	It is difficult to find suitable teaching materials, practical tools, and updated AI content for different student skill levels.	AI technology changes rapidly and educational resources are not always centralized or easy to access.	Overwhelmed and less confident about providing effective AI education.
