

Dashboard Design

Date	29 September 2026
Team ID	none
Project Name	Global AI adoption in education
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design

Activity 1: Interactive and visually appealing dashboards

Creating interactive and visually appealing dashboards involves a combination of thoughtful design, effective use of visual elements, and the incorporation of interactive features. Here are some tips to help you design dashboards that are both visually appealing and engaging for users so take care of below points

- Clear and Intuitive Layout
- Use Appropriate Visualizations
- Colour and Theming
- Interactive Filters and Slicers
- Drill-Down Capabilities
- Responsive Design
- Custom Visuals and Icons
- Use of Infographics

Note: Highlight the major outcomes in form of bullet points

Dashboard Screenshot:

Major Outcomes from the Dashboard:

- Curriculum Adoption: Schools with AI included in the curriculum show approximately 20,387 AI-adoption points, compared with about 19,610 where AI is not included, indicating a positive association between curriculum integration and adoption.
- Internet Penetration and AI Adoption: The scatter plot compares school AI adoption across different levels of internet penetration, helping assess the relationship between digital connectivity and AI readiness.
- Year-wise AI Adoption: AI adoption rises strongly across the displayed years and reaches a peak of about 6,411 in 2025 before dropping to around 2,370 in the latest plotted year.
- Government AI Policy Distribution: The treemap compares countries by government AI policy status—Active, Draft, and None—highlighting differences in policy support.
- Country and Student Usage Comparison: The map and country-wise bar chart enable comparison of AI adoption and student AI usage across countries and help identify higher-usage regions.

Activity 2

Publish Dashboard on Tableau Public and Paste the Dashboard Public link below:
